Freedom of choice for every application
At Windsor, we are creating a modern materials handling and access business from the imagination and vision of our owners, directors, employees and valued customers.

Partnership is a term often used, rarely meant. Our partnerships aren't just discount supply agreements, we work together with you to give you the best chance to improve your productivity and profitability.

Our aim is to provide the best quality local service on a national level. We maintain a philosophy of continual investment to help ensure our strong reputation for personal customer support is maintained.

Thanks to a local, one-stop approach for finance, hire, sales, maintenance and spares, we're able to add value via a quick, reliable and professional service.

Our ethos is to treat each customer individually, paying special attention to individual requirements. We place great value on knowledge and experience and aim to deliver excellent value for our customers through inspirational service.

We hope you can join us as we expand our national presence, as we aim to become the UK’s leading materials handling and access equipment company. Whether you require sales, service, supply or hire, we will guarantee you our utmost support.

Stephen Burton, Managing Director
Business Activities

Service
Windsor has been providing maintenance repairs and certification for all types of lifting and access equipment for many years, we are safecontractor approved and provide Thorough Examinations.

You’re assured of direct dialogue with one of our fully qualified support and engineering professionals. This commitment to a personalised customer service is the lifeblood of our business and has allowed us to gain a reputation for excellence.

Sales
Windsor can supply parts for almost all makes and models of forklift trucks, access platforms or warehouse equipment. Because we are not a manufacturer, we don’t have a pre-set agenda to push new equipment; we don’t believe in supplying machines that aren’t fit for purpose, and we certainly don’t believe in hidden costs or charges.

We’ll also use our financial power, stemming from our independent status, to weigh up the various finance options available to you and help you get the most flexible deal at a price that’s right.
Business Activities

Parts
Our parts prices are always competitive and we carry over 90% of line items in stock, with daily replenishment to our branches and field engineers. Any part not available from stock is obtained through our established supply agreements, and would normally be available within 24 hours. We supply genuine parts to ensure full compliance with service warranties and safety certification.

Hire
We have over 800 forklifts and access platforms in our fleet, and when renting any of these machines, all servicing, breakdowns and preventative maintenance is included. Should a fault occur that can’t be rectified, then a loan machine will be provided to you – free of charge.

Short Term Hire: We have a large stock of machines available at any one time, to immediately meet short term hire demand. If you a need a machine fast, we’ll get it to you fast.

Long Term Hire: We offer long-term contract hire packages, at competitive rates for both new and refurbished equipment, tailored to meet individual requirements. So, if you have a single or multiple truck application, we’ve got the right solution.
Products
Extensive Product Portfolio

It is no accident that we are now the UK’s leading independent distributor of Atlet, Doosan, JLG and Komatsu products.

Atlet’s award winning equipment is manufactured according to specific customer demands. From low lifters to double deep, the Atlet range sets the standard for others to follow.

Doosan offers a simple range of counterbalance forklifts that are well equipped and deliver high levels of productivity at low running costs.

JLG is the world’s leading designer and manufacturer of access equipment, with a diverse product portfolio of electric, diesel and LPG powered machines. From 30 metre lifts to simple stock pickers, or equipment for maintenance or other work at height.

Komatsu is an international leader in the fields of construction and mining equipment, whose forklift range maintains this Japanese giant’s reputation for high performance and rugged reliability.

We also work with a number of other specialist suppliers, such as Baumann, Combilift, Kalmar, Kärcher and Nilfisk that are specialists in their field.
The Windsor Advantage

**High Quality Product Range** – authorised distributors of a wide variety of materials handling & access equipment

**Partnerships** – Lasting relationships created by working together to achieve common goals

**Single Supplier Solution** – One point of contact for all your materials handling needs

**No 0800 Numbers / No Call Centres** – direct access to a local Service Manager who understands your site and more importantly your equipment

**Local Branch, Local Presence** – Branch Managers through to Engineers have an in-depth knowledge of all our products

**Maximised Uptime** – Parts held at local branches enabling us to get your equipment ‘back on the road’ as quickly as possible

**Fast Decision-Making Process** – Simple management structure enables prompt answers no matter how complex the request

**Health & Safety** – a keen focus on health and safety matters and records

**Large Short-Term Hire Fleet** – catering for all your short-term requirements
